

**PORT OF
MIDDLESBROUGH**
An AV Dawson Group Company

STREAMLINE YOUR SUPPLY CHAIN WITH TEES RIVERSIDE INTERMODAL PARK

Port of Middlesbrough's Tees Riverside Intermodal Park (TRIP) terminal, which is owned and operated by AV Dawson, offers a comprehensive range of vanning, devanning and storage solutions to enhance logistics efficiency for businesses handling containerised goods.

Located on the North-East coast of England, just 10 minutes from Teesport, the TRIP terminal is AV Dawson's purpose-built off-dock facility at the Port of Middlesbrough. Spanning six acres with direct rail access to the East Coast Mainline, it provides reliable, cost-effective solutions for container and ISO tank handling, storage and transfer.

Supported by our experienced teams and specialist equipment, the terminal ensures high standards of safety and care - making it a strategic hub for container logistics in the North of England.

WHY CHOOSE TRIP AT PORT OF MIDDLESBROUGH?

- Cost effective short and long-term storage solutions for all container types
- Rail-connected intermodal facility with a weatherproof rail storage canopy
- Experienced team utilising specialist equipment with a focus on safety, efficiency and sustainability
- Prime location - direct access to main strategic road network, rail and sea logistics routes
- Integrated transport services from one trusted provider

WHAT WE OFFER:

▶ CONTAINER STORAGE AND HANDLING SOLUTIONS

At TRIP, we can handle any size container, shipping or ISO tank, whether loaded or empty. We offer long and short-term storage for both hazardous and non-hazardous liquid ISO tanks.

Our comprehensive, end-to-end service means everything is handled for you. We'll collect your goods directly in their container and transport them to the TRIP facility. From there, we manage the devanning process and cross-dock your cargo to suit any trailer type, before completing the final delivery to your chosen destination, offering a seamless end-to-end service.

Storing your cargo at TRIP means gaining access to a smarter, more efficient logistics solution. With fast turnaround times onsite, daily stock reporting and a responsive customer service team you can rely on, TRIP ensures your operations stay on track and you have full visibility.

▶ DEVANNING (UNLOADING)

We can take the hassle out of container unloading by offering:

- Precise unpacking and thorough inspection of every item
- Immediate identification and reporting of any damage
- Professional re-palletising for smooth storage or onward delivery

▶ VANNING (LOADING)

We will ensure your cargo arrives exactly as it left and will:

- Strategically load containers to prevent shifting and breakage
- Tailor packing to the exact size, weight, and nature of your goods
- Operate with full compliance in confined spaces for total safety

▶ SHIFTED LOAD RECTIFICATION

If your cargo doesn't stay put, we can:

- Quickly unload and carry out a detailed inspection
- Re-stack and securely repackage
- Reload or prep goods for safe transport or storage

▶ ADDITIONAL SERVICES

Other services we offer include:

- Bulk container lining and removal
- Flexitank fitting
- Container repairs
- Garment rail removal

We offer seamless end-to-end logistics by road, rail and sea - ensuring your cargo is stored, handled and transported efficiently and safely to give you complete peace of mind.
